

HARIHARASUDHAN V

Aspiring Software Developer

+91 9150742320 | hariharasudhanvelmurugan@gmail.com | Madurai, TN

[linkedin.com/in/hariharasudhan-it](https://www.linkedin.com/in/hariharasudhan-it) | github.com/Hariharasudhan-29

PROFESSIONAL SUMMARY

Driven and detail-oriented Information Technology student with a strong foundation in C++, Java, Python, and modern web development. Experienced in building full-stack applications and IoT solutions through hands-on project work. A quick learner focused on writing clean, efficient code, seeking an entry-level software developer role to apply technical skills and contribute to a forward-thinking team.

EDUCATION

SRM Madurai College for Engineering and Technology | Madurai, TN

Bachelor of Technology in Information Technology | Expected 2027 CGPA:

7.38 (up to 5th Semester)

CEOA Matriculation Higher Secondary School | Madurai, TN | May 2023

TECHNICAL SKILLS

- **Languages:** C++, Java, Python, C
- **Web Technologies:** React, Node.js, Express, JavaScript, HTML5, CSS3
- **Databases:** MySQL, SQLite
- **Developer Tools:** Git, VS Code, Arduino IDE

INTERNSHIPS

Four Step solutions – Web designing

(December 2024- January 2025)

Developed strong web designing skills by contributing to real-time projects, improving proficiency in UI/UX, wireframing, and design optimization in a collaborative team setting.

Arutra Solutions - Full stack Development

(June 2025- July 2025)

Acquired practical full-stack development experience, improving coding and debugging skills through teamwork on live projects

AITRA – IoT, Drone & Robotics

(December 2025- January 2025)

Worked on IoT, drone, and robotics projects with sensor integration and automation, developing skills in real-time systems, hardware–software interfacing, and team-based problem solving.

PROJECTS

Face Recognition Attendance System

- Built an automated attendance system using Python, OpenCV, and the face recognition library to eliminate manual tracking.
- Engineered a real-time facial recognition pipeline to accurately identify individuals against a pre-populated image database.
- Automated the logging of attendance into CSV files, resulting in a 100% reduction in manual entry errors and saving significant administrative time.

TRANS-IT: Real-Time Bus Tracking System

- Developed a real-time college bus tracking system using Next.js and Firebase, providing separate portals for students, drivers, and admins.
- Implemented live GPS tracking with real-time updates and ETA-based bus monitoring for students.
- Integrated a QR code attendance system with trip start/end management and duplicate scan prevention for secure verification.

CERTIFICATIONS

- **Cloud Computing** – FutureLearn | May 2024
- **Internet of Things** – SRM IST Chennai | Mar 2024
- **Python for Data Science** – SRM IST Chennai | Feb 2024
- **Data Science Foundation** – Great Learning | Feb 2024
- **Placement Preparation** – Internshala Trainings | Feb 2024
- **Python (Basic)** – HackerRank | Jan 2024
- **Java Programming** – Great Learning | Oct 2023
